ABSTRACT

Childhood is a chid to the age of 0-6 years. At this time children are starting stages of development of basic or beginner, in which each stage requires a process of education and mentoring tailored to their age. When viewed through early childhood education at the school track the age groups divided into Toddler (0-2 years), playgroup (3-4 years), TK 1 (4-5 years), and TK 2 (5-6 years). Study materials are needed in Early Childhood Education material that is cognitive, behavioral, gross motor, and fine motor skills, which are all packed in a program to learn while playing. In addition to the material in early childhood education is also noteworthy about character education, where character education is not only the action in learning in the classroom, but require the assistance of individuals, especially for children who have special cases, such as hyperactivity or inclusive. In the mentoring process is an early childhood teachers need to understand the concept and process of counseling for all early childhood. Teachers Early Childhood Education (ECD) instead of just focusing on learning in the classroom, but can become a counselor who care about the development of children's character. Education at an early age is not education that focuses on cognitive development only, but a greater percentage of education should be on the development of children's character. A counseling process inside and outside the schedule of learning is required for children. In the process of counseling individual or group counseling teacher gives her empathy for the child, but it also teachers can give advice and character education to children. The process of counseling to early childhood can be given through the game or audiovisual media, but more emphasis to the form of sharing between teachers and children, children with children.

Keywords: counseling, early childhood, character, education

A. INTRODUCTION

The world of education is currently facing major challenges to be faced, which the world is currently focused education to implement the government's program to produce a golden generation for the year 2045 prepared golden generation is a demographic bonus Indonesian people who need to be prepared early, starting in 2013 up to 2045, in order to have a generation that is ready to build the character of the Indonesian nation and advanced. Character generation must be built on the foundation of education, where every school not only prepares a curriculum that focuses on cognitive, but also emphasizes the affective, psychomotor, creative, and religious. Surely education is more focused on formal
